

# The University of Missouri at Columbia

## STUDY HABITS

April 4 – 10, 2004

For the week indicated, note all Chemistry 210 related activities on the back of this sheet. Use the abbreviations listed below; for sessions that involved various activities, specify all (e.g. Notes/Text, 20 min.). Indicate time used either by marking the blocks accurately or specify actual time studied in minutes. Work done in collaboration should be indicated by adding "G" (for group) to the entry for the activity (e.g. News/VC 20 min G). Submit your sheet at the end of the first lecture immediately following the specified week.

Your name or participant ID:	
Lecture == Attending Lecture (mark only <u>if</u> you attend)	Models == Working with Models
Notes == Studying the Lecture Notes	News == Working online with News Items
Text == Studying the Textbook	IAE == Working online, Interactive Exercise
Problems == Working Problems in the Textbook
